

## **Framlingham College**

*This was our first financial year with Larking Gowen. It all went very well. LG were professional, technically very sound, and on time. They were well-priced too. There were also areas of value-add. We look forward to working with LG in the next financial year*

## **Victor Watson, The Wilson Estate**

*We would like to acknowledge our appreciation for the very professional and efficient manner in which Larking Gowen achieved probate of the Wilson Estate at such an early date. We were particularly impressed by the calm and concise manner in which the various accountancy and administrative issues were handled. Please extend our thanks to your team for their success in achieving such a positive early resolution.*

## **Maggie from North Norfolk**

*It is such a relief to know that we are sorted and are not going to be hit with a big bill!*

*I am from an accounting background but would not know where to start with Capital Gains, you have made the experience a joy - thank you!*

## **Christine Grimes**

*After my father died, I was in need of some tax advice. As I knew of Larking Gowen from my days working on a large farm estate, I went to them. I have used their services to sort out my tax affairs and, since my husband became self-employed in 2000, we have had his books audited annually by them as well.*

*In all this time we have been treated with great courtesy and respect from Mr Tim Angell, who deals with our affairs. His letters/telephone calls are always informative and to the point and his advice most helpful. I have never felt intimidated by him or talked down to. He is a pleasure to deal with on all matters.*

*I would have no hesitation in recommending him, or indeed Larking Gowen to deal with any tax or accounting matters.*

## **Andrew Kitchen, ERAS Ltd**

*We have utilised the Larking Gowen payroll services for 5 years and have never regretted the decision to outsource this area. The efficiency, accuracy and cooperation of Larking Gowen staff is excellent and all at a true value for money rate.*

## Tim Place

*Following the recent completion of the Timchris reorganization, I just wanted to place on record our appreciation of the advice and assistance provided by you and your colleagues at Larking Gowen.*

*This was a transaction of very great importance to the family, with substantial amounts involved and difficult legal and taxation issues including a very challenging international dimension.*

*Your role in guiding the transaction to a successful conclusion was invaluable, and we are very grateful.*

## **Damian O'Connor, Models Direct**

*One of the main issues we were involved in was an Inland Revenue investigation that had inexorably mashed us to pulp over a two year period with a £90,000 assessment. LG took over with the quiet confidence of true professionals and proceeded to position their expertise and exert influence.*

*Entirely due to the refreshing intervention of LG, led by partner Ian Fitch – this assessment has been whittled down by more than two thirds the original amount, along with implementing an imaginative and creative 'one off accounting charge' that has provided ongoing future benefits stored for the years ahead.*

*LG also got their crack team to grips with our book keeping, budgeting and business planning, analysis and forecasting with vigour and enthusiasm.*

*I wholeheartedly propose Larking Gowen and am happy to do so in writing and or in person.*

## **Rizikon Assessment For Capron & Helliwell Solicitors**

*With cyber risk ever increasing and GDPR legislation introduction it becomes ever more critical to protect both our clients and our business systems data.*

*When approached by Martin Bugg at Larking Gowen to stress test our current systems using their independent Rizikon Assessment programme we felt this was a golden opportunity to enhance our overall Corporate Governance strategy.*

*The online questionnaire was not unduly complicated and, where necessary, we worked with our third party computer services supplier to complete the questions relating to the more technical aspects of our computer operating systems .*

*We feel by carrying out this audit our exposure to business risk has been minimised, our compliance with GDPR has been enhanced and the whole experience will reinforce the continued success of the practice.*

## **Sue Tasker, Pressi**

*Whilst undergoing a review of my supplier and having met Ian Fitch and Becky Ames at several networking events I explained that like so many, time is of the essence for me, and I needed a provider that would holistically manage this crucial element of my business. Becky responded saying "we will take the headache away from you" and Julia White and all the team have certainly done that!*

*It is a real pleasure to work with them and without exception every member of the Larking Gowen team are responsive and professional, I look forward to a long and mutually successful business partnership.*

## **Harrison Pardoe, TauRho Transcribes Ltd**

*Larking Gowen has been a fantastic help since starting my business in 2016. I have felt supported in all aspects of growing my business, providing a bespoke service that has been tailored to my needs. The team are very friendly and are always available to answer my calls should I require any assistance. Where possible the Larking Gowen Team have helped me develop my own accounting skills, advising me on areas to improve my current processes and in particular assisting in my learning and use of QuickBooks Online for the Making Tax Digital deadline. From my experience, I would thoroughly recommend Larking Gowen to small business owners and start-ups in particular.*

## **Susan Fisher**

*Larking Gowen are a very professional company, they are friendly and willing to help in any way. We have been with them for many years and have always been looked after wonderfully well. We would certainly recommend them.*

## Steve Pymm, Pymm and Co

*Over the past few years Martin Bugg and Larking Gowen have been a key part of my business helping me in the decisions I have taken. It is without doubt that the help that Martin has offered has resulted in assisting me in getting my business to where it is today. I feel that Martin understands my business and helps me in achieving my goals.*

*If you are a driven and ambitious business owner whose business is growing and taking up an increasing amount of your time, you need to get in touch with Martin at Larking Gowen.*
